Using this trade matrix

This trade matrix shows the prices for Sheerline's S1 lantern roof in 10 different style options.

The prices in this matrix are a guide only. For the latest pricing please contact your fabricator.

Please note these trade prices are:

Unglazed, exclude installation and exclude VAT

Our lanterns are available in the following colours

STANDARD LANTERN COLOURS

All available in dual colour combinations.

BESPOKE LANTERN COLOUR EXAMPLES

Please contact us for your requirements to discuss minimum order volumes. All available in dual colour combinations.

DISCLAIMER

Due to the variability of manufacturing processes and the differences in the methods used to represent these colours, we cannot guarantee an exact colour match between the actual paint colour and the colour as seen on-screen or when printed. The RAL colour references are also provided as a guide only and we recommend asking to see a physical sample prior to order if required. All colours and finishes are supplied within standard tolerance ranges.

The S1 system combines security, thermal performance and refined looks to create the ultimate next generation aluminium lantern roof

secure | sustainable | stylish
Performance through innovation

■ Patented* Sheerline corner joint provides structural integrity and reduces misaligned corners

■ Intelligent system design creates an ultra secure lantern for added peace of mind

■ Unique Thermlock[®] technology gives class leading thermal performance

■ Low line glazing and inline rafter cappings create the ultimate contemporary look

■ Manufactured in-house in the UK, for a robust and agile supply chain you can rely on

Designed, made and delivered by Sheerline

Manufactured in the UK, we design and make every major aluminium and moulded component ourselves for a resilient and reliable supply chain. This gives us the control to offer unbeatable and responsive service, helping keep lead-times agile and responsive.

The UK's most secure lantern roof

Anti-tamper screws, enclosed anti-tamper glazing, security tape and a patent pending glass lock, alongside S1's high security ridge end, combine to make Sheerline's S1 system the UK's most secure non bonded aluminium lantern roof*.

Thermlock® technology

Our next generation lantern provides exceptional thermal performance using 28mm glazing combined with Thermlock® closed-cell, insulating chambers to create class leading thermal performance, far superior to traditional polyamide thermal breaks.

Slim, ultra low line aesthetics

Careful attention has been given to style with rafter and hip top caps sitting just 8mm above the exterior glazing level. While corner and rafter end caps run perfectly in line with the perimeter of the lantern, creating a sleek and refined architectural appearance.

At a glance

- 25° pitch
- 10 styles
- 50mm sightlines
Rafter, hip, jack rafters and ridge
- Max 3.2 x 6m
- 1.2KN/m² snowload
Covering the whole of the UK up to 200m altitude.

The S1 roof lantern delivers real benefits to homeowners in a system that is as installer friendly as the rest of the Sheerline range.

ThermLOCKI[®]

technology inside

Thermal performance

Thermlock[®] multi-chamber technology used in the eaves beam, ridge and all rafter and hip bars creates an exceptionally thermally insulated lantern. With a unique co-extruded perimeter seal ensuring draughts and rain are kept safely outside, while 28mm glazing allows acoustic dampening glass to be fitted if required.

Our eaves beam design also ensures aluminium sections remain internal, preventing cold bridging and condensation issues.

Installer friendly

Unique hook brackets support the hip rafters during construction, simplifying fitting on site and speeding up installation. We've also designed out many common issues installers encounter and include internal rafter end caps to prevent bars marking the eaves beam during installation.

Style options

Sheerline aluminium roof lanterns are available in a choice of 10 styles from square 'pyramid' designs to grander options suitable for larger 'orangery' style installations.

Maximum sizes range from 2.4 up to an impressive 6m long, all set at a 25° pitch and all weather rated for the whole of the UK*.

SI lanterns also feature an integral LED light channel in the eaves beam – giving an easy way to add lighting to an installation if required.

**Rated for a snow load of 1.2 kN/m². Covering the whole of the UK up to 200m altitude.*

Next generation lantern

Secure, sustainable and stylish

Deep internal roof bars, clean lines and discrete external aesthetics create an exceptional looking roof. Innovative design and patented technology ensure it's also the most secure and thermally efficient.
