BI-FOLD DOORS

eurocell®

Bi-fold doors offer the benefit of opening an entire wall into your outdoor space, bringing in all the benefits of natural light. Our uPVC Bi-fold doors offer an affordable solution for creating a modern and stylish look in any home. They are easy to install and require very little maintenance. They are also incredibly energy efficient, helping to save money on rising energy bills.

uPVC Bi-Fold Doors come in a variety of styles and sizes. Their design is diverse to fit any opening size, and the number of panels can be customised according to the available space. The panels move along a high-quality track system, which ensures smooth and effortless operation. In addition, they are fitted with multi-point locking systems, ensuring incredible security and excellent levels of protection.

Make these doors your own...

You have the freedom to choose whether your doors open inwards or outwards, allowing you to tailor the design to your unique preferences and spatial considerations. You can enhance the aesthetics further by adding one or two sidelights, providing an additional touch of elegance to your entryway. Personalisation extends to the finer details, with a range of handle colours available for selection. This level of choice ensures that your French doors meet your functional needs and align seamlessly with your individual style, making a statement that goes beyond the entrance - a true reflection of your taste and personality.

Sleek Design

Our Aluminum French doors feature discreet hinges, enhancing the sleek design and aesthetics of the doors.

Prestige Collection

The Prestige door range is an exceptional option for those looking for a thermally efficient and diverse door system. The system is specifically designed to provide maximum flexibility in terms of hardware options due to its full-depth Eurogroove. This means you have the freedom to customise your door to your exact specifications. The Prestige door range offers superior thermal insulation, ensuring that your home stays warm and energy-efficient.

Sheerline offers high-quality windows, doors, and lantern systems with ultimate security. Their products feature innovative Thermlock® multi-chamber thermal break and a patented construction method. They are contemporary, secure, and sustainable, catering to discerning homeowners, installers, and fabricators.

- **Double Glazed Toughened safety glass**
- **Outstanding thermal performance**
- **Available with Clear or Obscure Glass**
- **Innovative Thermlock®**
- **Part L Compliant**
- **Patented construction - eliminating misaligned frames**
- **"Stepped" & "Contemporary" styling options**
- **Available in a range of contemporary colours**

Eurocell Logik uPVC windows not only offer exceptional functionality but also come in a variety of standard colours. Choose from a palette that seamlessly matches our range of uPVC doors, ensuring a cohesive and harmonious aesthetic throughout your living spaces. From classic neutrals to bold hues, our uPVC windows bring a pop of colour to your home while maintaining the durability and energy efficiency that uPVC is renowned for. Redefine your space with windows that combine practicality and design flair.

Smart Systems Aluminium Windows offer a versatile range of profiles tailored to meet the diverse needs of residential properties. With the flexibility to craft traditional casement windows reminiscent of the elegance found in timber products or to fashion contemporary-style windows ideal for modern homes or offices, Smarts provides a solution for every architectural vision. This profile features Smart's groundbreaking polyamide thermal break technology, which establishes a formidable barrier between the chill of the outdoors and the warmth within, ensuring not only style but also exceptional thermal efficiency all year round.

Both ranges of aluminium are available in the following standard colours

uPVC Heritage

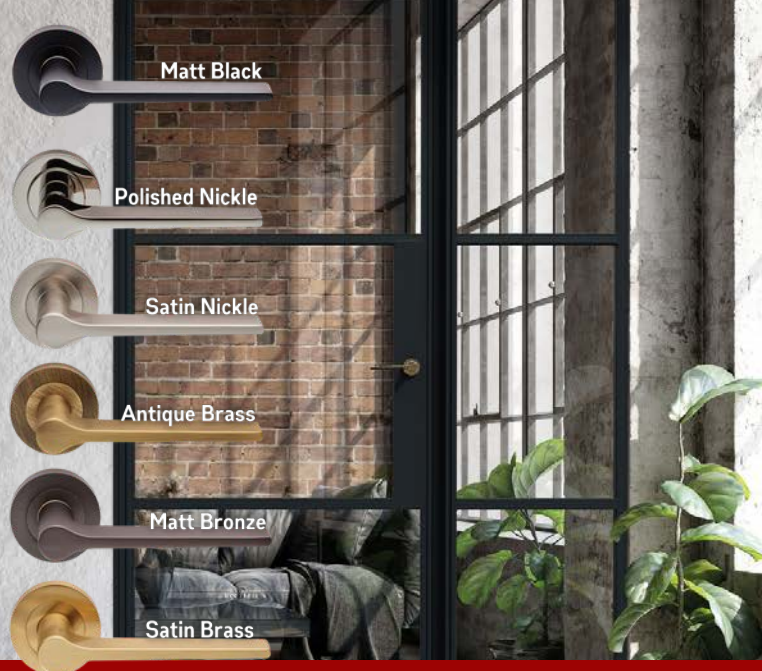

We also offer External Aluminium Heritage doors in a single opening style, for those smaller entrances. These can also be customised with sidelites and toplites to create your desired look.

Our uPVC Heritage doors have been designed from the Eurocell Aspect Profile as a budget-friendly alternative, designed to give the luxury feel of heritage doors at the price of uPVC.

ALUSPACE

Internal Aluminium Heritage doors are a timeless and elegant choice that can completely transform the interior of your home. These doors not only exude a sense of history but also add a touch of character and charm to any space. Whether you're looking to create a vintage atmosphere in a historic home or to infuse a modern space with a touch of classic beauty, heritage doors can help you achieve that.

Our Internal Heritage Doors are available in a range of configurations. With our internal Heritage French doors, you can combine Sidelites and Toplites to get your desired heritage look. These doors are perfect for creating a statement piece in your home.

We also offer Single Internal Heritage Doors, which are perfect for all rooms in your home. You can customise your doors to fit your home's aesthetics through a choice of handle colours and glass options. Upgrading your glass to Obscure Satin glass allows you privacy while achieving the beautiful heritage look.

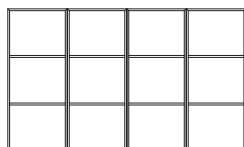

Create an additional room

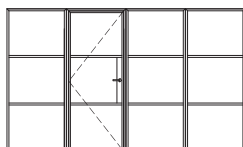

With Aluspace screens, you can create an extra room in any corner of your home. Whether you need a space to work from home or a quiet area to unwind, these Aluspace screens create the perfect space. With their ability to reduce noise, you can make a distraction-free zone in your busy home.

ROOF LANTERNS

Eurocell Skypod

Eurocell Skypod is an innovative Roof Lantern that floods interiors with natural light, enhances aesthetics, and offers exceptional performance. Its precision-engineered frames and high-performance glazing provide optimal thermal efficiency and weather resistance. The Skypod is visually stunning and reduces energy costs, making it a practical and attractive choice for any living space. This Roof Lantern is manufactured from thermally efficient aluminium frames with powder-coated aluminium ridge, finished with uPVC trims to the rafters internally and externally.

SPECIFICATION & FEATURES

- **Double Glazed Toughened safety glass**
- **True Self Cleaning Activ Blue Smartglass as standard.**
- **Exceptional energy efficiency with a Centre Pane U-value of either 1.0 w/m2k or 1.2 w/m2k**
- **A fixed 20 degree pitch.**
- **Quick and easy to install.**
- **Available with Clear Glass**
- **Supplied with Installation Instructions**
- **10-year Guarantee (Conditions apply)**

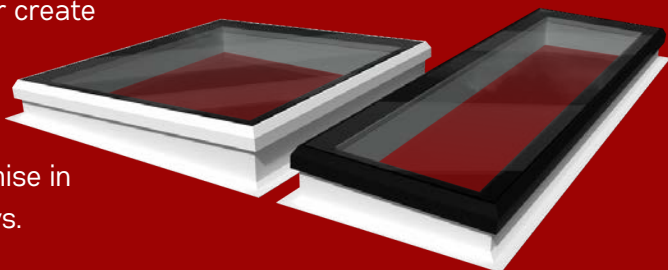

eurocell®

Luma Rooflite

SPECIFICATION & FEATURES

- **Secured from the inside**
- **Integrated drainage system**
- **Slimline modern profile**
- **Uninterrupted view**
- **Durable, long-lasting design**
- **Double and triple-glazed options**
- **U-values as low as 0.92**
- **Weather-resistant aluminium powder-coated frames**
- **Tinted glass options**
- **Self-cleaning**
- **Easy installation**
- **10-year product guarantee**

Luma Rooflite ensures home security and thermal efficiency with an impressive U-value of 0.9 and is secured from the inside for increased protection. Equipped with an integrated drainage system, moisture is efficiently directed away outside. Choose from clear, neutral, or blue-tinted glass in double or triple-glazed units to suit your preferences. The slim aluminium frame boasts a sleek design free from glazing bars that might obstruct exterior views or create shadows. Available in durable black and white powder-coated finishes, with the option to customise in various RAL colour sprays.

Sheerline's roof lanterns are innovative, energy-efficient, secure, and stylish. They feature Thermlock® technology, deep internal bars for strength, ultra-low line aesthetics, and durable powder-coated aluminium. Security is integrated into every S1 lantern.

SheerVent® is a sleek and minimalist vent that can be easily automated. It eliminates the need for muntin bars and ensures reliable ventilation without leaks. It is fully thermally broken and equipped with high-performance glazing, making the S1 lantern a leader in its field.

Sheerline S1 Lantern

Features:

- **Double Glazed, Toughened Safety glass**
- **UK's most secure lantern**
- **Exceptional thermal performance**
- **28mm glazing 1.0 U-value W/(m²K)***
- **Available with Clear Glass**
- **Slim Sightlines**
- **Supplied with Installation Instructions**
- **10-year Guarantee (Conditions apply)**

Our Made-to-Measure service...

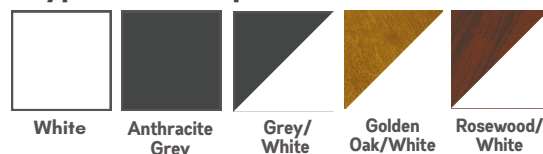

ATT Fabrications is proud to offer a Made-to-Measure service that allows you to design your perfect windows, doors, and roof lanterns. With our service, you can create windows, doors and roof lanterns that will fit your exact dimensions, ensuring a perfect fit for your property. We understand that every home is unique and that your windows and doors should reflect your style. Therefore, if our standard colours do not match the aesthetic of your home, you can select a RAL colour to match your property. Our team of experts will work closely with you to provide guidance and advice, ensuring that your custom-made windows and doors meet your requirements.
