

A T T FABRICATIONS LTD	Customer Specification For SIP Building	SF014 Issue 1 6th July 2026															
	Customer Name: _____ Date: _____ Email: _____ Contact Number: _____																
Information: - Majority of our products supplied are standard off the shelf, however we can offer bespoke sizes but this will be a bespoke extra charge. - As standard our doors are anthracite grey on the outside, white on the inside and will include a 150mm cill and an overhead vent head, incorporating trickle ventilation. - Our handles on both windows and doors are black as standard and the door hinges are grey as standard. - As standard we offer a rubber roof for all buildings, however we can also offer a Kingspan roof but keep in mind size limitations apply when choosing this option. - Our standard panel sizes for our buildings currently stand at 105mm Floor, 97mm Wall, 122mm Roof. If you choose to go bespoke this will be charged extra and takes longer to manufacture. - Our standard overhang for our sips kits are currently 150mm at the front of the building. - Standard internal heights at the front measure at 2220mm and 2150mm at the back. - Majority of buildings sold are our standard sizes due to height restrictions with planning permission. If you choose a bespoke building, we will need proof of planning permission.
